APPENDIX II.

[Vide answer to starred question No. 172 asked by Sri P.G. Manickam at the meeting of the Legislative Assembly held on 25th January 1961 on page 478 supra.]

A.—No amount has been specifically set apart for the provision of electric street lights in Harijan Colonies during the period of the Second Five-Year Plan. But electrification of Harijan Colonies which includes provision of electric street lights therein, has not been hampered on this account.

Provision exists in the Second Plan for the electrification of the villages in the State and it has been ordered that when schemes are evolved for the electrification of panchayat areas, the adjoining Harijan Colonies should also be included in such schemes and taken up for electrification. Besides the Government have decided to make from the Harijan Welfare Funds an annual grant of Rs. 1·5 lakhs for a period of ten years to meet the short-fall in revenue from unremunerative schemes for the electrification of Harijan Colonies adjoining panchayats which have already been electrified. Under this scheme a grant of Rs. 1·5 lakhs was made in 1957–58, Rs. 2 lakhs in 1958–59 and Rs. 1·5 lakhs in 1959–60. The entire amounts have been utilized.
